

## Product Detail

These Heavy Duty Black and White Bollards are removable as standard and are locked firmly into the ground socket by a Padlock( can be supplied), the ground socket has a top mounted hinged lid to completely cover the access hole when the Post is not in use.

These Heavy-Duty Posts are ideal for restricting access, blocking entrances, and protecting roller shutter doors. They can also be used to cordon off pedestrianised areas.

The tops of these posts are fully welded closed, unlike many inferior types out there on the market that are just plastic inserts which are easily removed and therefore allow rubbish to be inserted into the post.

Standard Colour: Black with White Banding and 2 No Amber Reflectors, Plated Socket.

### Sizes

- SMALL: 690mm above ground, 200mm below ground – Weight 8Kg
- INTERMEDIATE: 965mm above ground, 250mm below ground - Weight 12Kg
- LARGE: 1100mm above ground, 300mm below ground comes with 2 No. handles for ease of lifting. Weight 17Kg
